

mAm 2013 – the future is today

Microsystems have now entered the age of high volume production for consumer applications, especially mobile phones, ICT and medical disposable devices. The issues associated with the production of these are of continued interest to manufacturers. These include tooling in high volume fabrication of precision parts, making highly efficient and reliable automated assembly lines and test systems for microproducts. There is a fast growing market for such components and products. Following in the success of the first three editions, The Micronarc Alpine Meeting 2013 will continue its focus on equipment for manufacturing microproducts.

Micromanufacturing and MEMS at the center of attention

This 2 day conference intends to stimulate networking and discussions in the casual atmosphere of Villars, a charming village and ski resort located at 1250 meters of altitude. A selection of invited speakers and presentations will present and debate on micromanufacturing and MEMS. A small, table-top exhibition will be conducted in parallel for those wishing to promote their company and products.

The conference will take place on a Monday and Tuesday, thus permitting participants that wish to arrive early to take advantage of the proximity to the ski lifts or simply relax for a couple of days in a laid-back alpine setting. A conference dinner on Monday evening at 1800 meters of altitude will add a touch of local charm.

A limited number of participants will be able to attend the event. Don't miss it!

Finden Sie Ihren Partner für Osteuropa – wir begleiten Sie dabei

- Markteintritt
- Marktanalysen
- Distribution
- Outsourcing / Beschaffung
- Niederlassungsaufbau
- Greenfield / Brownfield
- Maschinen- und Anlagenbau, Kunststofffertigung, Metallverarbeitung
- Vom Erstkontakt bis zur Umsetzung (Analyse, Qualitätssicherung, Supply Chain Management, Recht, Follow-up)
- Zweigniederlassung in Wien / Österreich und lokales Netzwerk Osteuropa

Diese Firma in Rumänien fertigt heute Teile für einen Schweizer Maschinenbauer, erfolgreich!
